product information

bubble stool

1. PRODUCT:

use: as a stool, general seating purposes.

material: polyethylene, rotomoulded, u.v. stabilised.

dimensions: 380mm DIA, 460mm H

weight: 5 kg

colours: magenta, red, orange, yellow, lime green, light green, teal, light blue, dark blue, charcoal, birch grey, beige, natural white. black is offered as 100% recycled polyethylene!

2. WARRANTY

warranty: 5 years

based on use as a stool, and observance of product maintenance procedures. excludes fair wear and tear.

replacement parts policy

the red plug on the base of the stool is the only part which might require replacement if accidentally removed or lost. Please contact us and we will supply replacement plugs at cost as required.

3. PRODUCT MAINTENANCE INFORMATION

care and maintenance of polyethylene surfaces:

occasional surface cleaning will extend the life of this product.

clean with a damp lint free cloth and a low concentration solution of mild detergent and water. do not use cleaners containing bleaching agents, abrasives or solvents, these may damage the surface.

to help prolong the life of the product a wipe down with Armour-All will rejuvenate the surface.

4. END-OF-LIFE RECYCLING

korban/flaubert product stewardship program:

please recognise the inherent value and easy recyclability of our rotomoulded products.

this product should be returned to us at the end of its useful life.

or arrange with us to have it collected at a negotiated transport fee. We undertake to send it to the local recycler Simsplastics who recycle the material in its entirety: regranulating into polyethylene pellets for remoulding into agricultural products such as drainage pipes. The standard resin code no.2 for HDPE is clearly indicated on the base of the product to facilitate this.

designed and manufactured in australia.

local products support energy efficient agendas by radically reducing freight carbon footprint.
